

# I Think About You

Ross Lynch

Last summer we met  
We started as friends  
I can't tell you how it all happened  
Then autumn it came  
We were never the same  
Those nights, everything felt like magic

And I wonder if you miss me too  
If you don't is the one thing that I wish you knew

I think about you every morning when I open my eyes  
I think about you every evening when I turn off the lights  
I think about you every moment, every day of my life  
You're on my mind all the time, It's true

I think about you, you you, you you  
I think about you, you you, you you

Would you know what to say  
If I saw you today?  
Would you let it all crumble to pieces?  
'Cause I know that I should  
Forget you if I could  
I can't yet for so many reasons

I think about you every morning when I open my eyes  
I think about you every evening when I turn off the lights  
I think about you every moment, every day of my life  
You're on my mind all the time, It's true

I think about you, you you, you you  
I think about you, you you, you you

How long 'til I stop pretending  
What we have is never ending  
Oh, oh, oh  
If all we are is just a moment  
Don't forget me cause I won't and  
I can't help myself

I think about you, Ooh, ooh  
I think about you, Ooh

I think about you every morning when I open my eyes  
I think about you every evening when I turn off the lights  
I think about you every moment, every day of my life  
You're on my mind all the time, It's true

I think about you, you, you, you, you  
I think about you, you, you, you, you
