

# Take It From The Top

Ross Lynch

Take, take, take, take it from the  
Take, take, take it from the top babe.  
Take, take, take, take it from the  
Take, take, take it from the top babe.

You never know what this world has in store for you  
You break down walls so they don't block your point of view.  
Stand tall keep your head up 'cause you're ready to break through  
And if you want to start a new then all you got to do is

Take it from the top  
When I'm in over my head  
Take it from the top  
I'm pushing play and start again  
Take it from the top  
Sometimes it might feel strange the best that I can change  
You know I never stopped  
Take it from the top

The futures never promises far from guaranteed  
The brighter days are always just within' your reach.  
A new beginning is the only thing you need  
I know you want to feel it too  
So all you got to do is

Take it from the top  
When I'm in over my head  
Take it from the top  
I'm pushing play and start again  
Take it from the top  
Sometimes it might feel strange the best that I can change  
You know I never stopped  
Take it from the top

Take, take, take, take it from the  
Take, take, take it from the top babe.  
Take, take, take, take it from the  
Take, take, take it from the top babe.

Take it from the top  
When I'm in over my head  
Take it from the top  
I'm pushing play and start again  
Take it from the top  
Sometimes it might feel strange the best that I can change  
You know I never stopped  
Take it from the top

Take, take, take, take it from the  
Take, take, take it from the top babe.  
Take, take, take, take it from the  
Take, take, take it from the top babe.

Sometimes it might feel strange the best that I can change  
You know I never stopped  
Take it from the top.
