

# Upside Down

Ross Lynch

(Do do do do do do do do)

I always get this funny feeling  
Every time you come around  
It's like I'm walking on the ceiling  
Both feet off the ground

And it's so right but feels so left  
Upside down like I'm losing my head  
'Cause I know where my heart belongs-  
With you again

So I say hey  
I'm crazy into you  
And I say hey  
Every minute's overdue  
And I can't wait  
No, I don't care, I'll do what it takes  
Driving all night,  
Catch the first flight  
Just to see you, I'll explain

You got me like upside down  
You standing there  
I swear my whole world's turned around  
I can't believe you're here  
I was looking in the crowd  
But you're here now  
You standing there  
I swear my whole world's turned around  
You got me upside down

Do do do do do do do do  
Do do do do do do do do  
You got me upside down  
Do do do do do do do do  
I'm upside down

Tell me how am I supposed to act like everything's okay  
It's like I jump without a parachute right into a tidal wave

I'm so mixed up  
There's no doubt  
Got me feeling like I'm inside out  
It's funny when I'm here with you  
I wouldn't change a thing

So I say hey  
I'm crazy into you  
And I say hey  
Every minute's overdue  
And I can't wait  
No, I don't care, I'll do what it takes  
Driving all night, catch the first flight  
Just to see you, I'll explain

You got me like upside down

You standing there  
I swear my whole world's turned around  
I can't believe you're here  
I was looking in the crowd  
But you're here now  
You standing there  
I swear my whole world's turned around  
You got me upside down

Do do do do do do do do  
Do do do do do do do do  
You got me upside down  
Do do do do do do do do  
I'm upside down

You got me spinning  
From the moment you walked in the room  
Girl, I'll admit it  
There's nothing I can do but fall for you

Oh you got me like upside down  
Oh you got me like upside down

(Hey...)

You got me like upside down  
You standing there  
I swear my whole world's turned around  
I can't believe you're here  
I was looking in the crowd  
But you're here now  
You standing there  
I swear my whole world's turned around  
You got me upside down

Do do do do do do do do  
Do do do do do do do do  
Oh whoa...  
You got me upside down  
Do do do do do do do do  
Whoa oh...  
Upside down...  
Do do do do do do do do  
Oh whoa...  
Do do do do do do do do  
Do do do do do do do do  
I'm upside down...
