

# What We're About

Ross Lynch

I'm gonna be first to the finish line  
Never givin' up 'til we're out of time  
And I'm gonna make it there no doubt  
That's what I'm about, I'm about

Not gonna break 'til the music stops  
Keep on climbing 'til we hit the top  
If you got a dream, gotta let it out  
Show 'em what you're all about, all about

Na na na na na  
I got a feeling that tonight's the night, yeah  
Na na na na na  
I got a feeling that it's our time

Let's take this out to the streets  
Everyone's following me  
We'll throw our hands to the sky  
We're celebrating our life

Come on let's give it a shot  
This may be all that we've got  
Right here, the moment is now  
Let's show 'em what we're about

Oh woah  
Let's show 'em what we're about  
Oh woah

If you don't try then you'll never know  
Just how far that you're gonna go  
We can take off, fly the world around  
See what it's all about, all about

I can hear music in the air  
And I see people everywhere  
I can feel the magic in the crowd  
'Cause that's what we're all about, all about

Na na na na na  
I got a feeling that tonight's the night, yeah  
Na na na na na  
I got a feeling that it's our time

Let's take this out to the streets  
Everyone's following me  
We'll throw our hands to the sky  
We'll celebrate it all night

Come on let's give it a shot
