

## I Am With You

Rotersand

I am with you from the day  
You saw the light and took your mother's breath away  
I am with you when you fade  
When your soldier's laying down his blunted blade

Once you'll stay with me  
I will set you free  
Forever free from all your worries and your vanity  
There's no need to fear  
I will hold you dear  
In my arms you'll close your eyes for all eternity

I am with you when you laugh  
With sudden joy that makes you praise the gods above  
I am with you when you cry  
When all you ask is why and there is no reply
