

# I Cry

Rotersand

Me and you  
standing eye to eye  
I read your face,  
i've known you for so long  
Torn in two  
and i don't know why  
What was right  
somehow now is wrong

I say hey my friend  
Don't let it end  
We've got to try,  
try while we still can

I say hey my friend  
I don't know when  
But there's a time  
our sun will rise again

What we did,  
what we said  
What we missd and what we had  
I cry i cry  
over you

What we did,  
what we said  
What we missd and what we had  
I cry i cry  
over you

I say hey my friend  
I say no you can't  
Walk away,  
run away like this

What we did,  
what we said  
What we missd and what we had  
I cry i cry  
over you

What we did,  
what we said  
What we missd and what we had  
I cry i cry  
over you

What we did,  
what we said  
What we missd and what we had  
I cry i cry  
over you
