

# Undone

**Rotersand**

You know - we're gonna fight until our fire's turning cold  
I know - you would never try to see it's not my fault

It's gone too far to be undone  
It's always been just hit and run  
I guess it's true, i'm finally lost  
A piece of garbage turned and tossed

There's no more time to show concern  
We've crossed the point of no return  
I guess it's true, i'm on my own  
A soul that's frightened to the bones

You know - i'll never find the words to sing your melody  
I know - there's no way that you could walk to follow me

It's gone too far to be undone  
It's always been just hit and run  
I guess it's true, i'm finally lost  
A piece of garbage turned and tossed

There's no more time to show concern  
We've crossed the point of no return  
I guess it's true, i'm on my own  
A soul that's frightened to the bones

You know...  
I know...  
I guess it's true...  
I guess it's true...

It's gone too far to be undone  
It's always been just hit and run  
I guess it's true, i'm finally lost  
A piece of garbage turned and tossed

There's no more time to show concern  
We've crossed the point of no return  
I guess it's true, i'm on my own  
A soul that's frightened to the bones
