

## Peace

## Rotten Sound

After every conflict the winner is reclaimed  
Ruthless men who were insanely brave  
Nobody won anything  
Than masses of bitterness and insanity

It's time for peace  
It's time to forgive

Slain, humiliated losers  
Thank their conquerors

For saving the precious lives  
For raping their priceless wives

It's time for peace, it's time to forgive  
But neither of the sides will ever forget  
It's time for peace, it's time to forget  
The traumatized ones will never be able to forgive

The inglorious casualites of war  
Were doomed to bleed to death

In the eyes of the winners  
Terrors and horrors of war

It's time for peace, it's time to forgive  
But neither of the sides will ever forget  
It's time for peace, it's time to forget  
The traumatized ones will never forgive
