Who are these tiny people  
That pass my life close by?  
How minor and unnecessary  
Has everyone else become?

This is my universe  
This is my throne

Particles around  
My existence only proves  
My gravity has more influence  
Than all the gods to whom you ('ll ever) bow

This is my universe, This is my throne,  
My existence is a blessing for this globe,  
I am taking over this place by destruction of grace  
I shall run over your meaningless trails of life

Become my follower  
Or be my enemy,  
Become my follower  
Or be crushed - By my will
