

# Victims

**Rotten Sound**

You saw what was coming  
You could have resisted everything  
It was our time to get up  
And that was our day to win

You are victims of your own apathy  
Victims of passive democracy  
Another chance came across  
And making a stand against was in your hands

It was the time to get up and shout  
To use your vote and to choose the left side  
You are victims of your own apathy  
Victims of passive democracy
