

## Noctis Era

## Rotting Christ

Paint death with colour night  
Scream loud your feeling fright  
Hear the mercy yell fight  
Uncahin the beast inside and bite  
Face the underworld  
This twisted and naked world  
Where screams sing the song  
The song of the netherworld  
We are the fears  
We are always near  
We are the fears that feed our souls  
With frozen tears  
We are the fears  
We sound clear  
We are the fears that nail your soul with our spears

Weep for me, for you, for thee  
Pray in your distress to die  
Lay down, obey, vile  
Face the enemy and fight  
Welcome to our world  
To gloomy and dusky world  
Where sins sing our song  
We are the fears  
We are always near  
We are the fears that feed our souls with frozen tears  
We are the fears  
We sound clear  
We are the fears that nail your soul with our spears

Dark covered era, behold eternal  
Beware the quite torment that last eternal  
Bloodstained era that last eternal  
Fire... Fire...

Dark covered era  
Bloodstained era that last eternal  
Fire... Fire...
