You My Flesh

Rotting Christ

flesh from my flesh
natural or unnatural guess?
even if they harm you
you can't die

you my flesh, you my blood
I see the truth
when you die I'll die
I saw through your eyes
I spoke with your tongue
I name you with my name
flesh from my flesh
natural or unnatural guess?
even if they harm you, you can't die

they can't harm you they are only clouds come with me in a higher sky imagine your will and let it be

what is this that comes from you? the way it comes it makes me tremble like you without movement it creeps against us how does it dare it can't kill us

I never studied with my mistakes even when tired I'll do the same why did I give you life? why did I give you life?
