### Rotting Out

Problems, problems, I've got problems.  
I've got problems and nowhere to go,  
I don't know what the fuck to do.  
Problems, problems I've got problems,  
I have problems and you don't have a clue.  
Problems, problems I've got problems  
And I don't know what the fuck to do.  
Everyone wakes up to a bad day,  
But not every morning in this case,  
There's always something waiting to go wrong;  
I have no money, my car breaks down, the bus is late again.  
I mean cut me a fucking break.  
1, 2, 3, 4 and I know these problems won't go away.
