

# Symphony Of Life

Rough Silk

"Sol est rex diei - luna est regina noctis.  
Usus est magister optimus. Iusticia !  
magnis viris vivis honores tribuuntur mortuis statuae ponuntur  
.  
Ita vixi ut non frustra me natum esse existimem.  
Magnos homines virtute non fortuna metimur.  
Quibus opes nullae sunt bonis invident  
Quem di diligunt adulescens moritur  
Amnis latus - grex magnus - ensis cruentus - totus orbis terrarum - cinis callidus  
Deleo ! Defleo ! Detego metuo ! Extinguo senesco intellego diligoo !"

So many times I've been searching even though I still don't know what I'm looking for.  
So many times I've been running away but there ain't no point in running anymore.  
So many times I've been hiding from the cruel reality.  
So many times I've been down that road before on my way to insanity.

In this symphony of life I've been playing outta key.  
I'm a drifter on the run but maybe that's my destiny.  
( Symphony of life )  
Sometimes the pleasure's worth the pain.  
Sometimes your childhood worlds remain.  
Sometimes your dreams cut like a knife.  
in this symphony of life.  
Sometimes the future brings the past.  
Sometimes you're running nowhere fast.  
Sometimes your submarine won't dive  
in this symphony of life.

So many times I've been turning around in circles for a while.  
So many times I've been rising from the ashes but giving up just simply ain't my style.

In this symphony of life.....
