

Big Black Cadillac

Roxette

My baby came back in a Big Black
My baby came back in a Big Black
My baby came back in a Big Black Cadillac

She looked better than gold like she was dear
You know she changed her name got one small kid
My baby came back in a Big Black (Black) Cadillac

Black Cadillac It seems he lost the knack to blow my mind attack when I came back
Black Cadillac I'm sure he miss my touch I never really missed him much

She's digging for gold it's what she doing
I got to be older than a ruin
My baby came back in a Big Black Cadillac, Cadillac

Black Cadillac it seems he lost the knack to blow my mind attack when I came back
Black Cadillac I'm sure he miss my touch I never really missed him much
Black Cadillac, Ohhhhhh Oh yeah he lost the knack to blow my mind attack when I came back
Black Cadillac I know he miss my touch I never really really missed him

Someday I sit and share my brand new song with you everywhere (everywhere)
There's this something hanging in the air a sticky love affair
bubble gum in my hair

My baby came back in a Big Black
My baby came back in a Big Black
My baby came back in a Big Black Cadillac

Black Cadillac it seems he lost the knack to blow my mind attack when I came back
Black Cadillac I'm sure he miss my touch I never really really missed him much
Black Cadillac the things that went too far arriving in the car
(Ohhh he'll be sold)
Black Cadillac I'm sure he miss my touch I never really really missed him much

Black Cadillac Oh Baby, Ohhhhhhh
Black Cadillac I never missed him much
Black Black Cadillac
