One Is Such a Lonely Number

Roxette

I never knew when you walked in the room.

I sold my soul to a stranger, an angel face yea.

I never had this kind of sight before,
this kind of vision white, hang on tight yea.

I don't know, girl, you've been around.

Don't you go, don't you let me down.

One is such a lonely number, to make the world go round. Three is just a little too much to touch, now honey To make the world go round and round and round.

One is such a lonely number.

I think about what this has done to me.

I'm going back to the start, back to school days.

I never had this urge inside of me,
to hear the sound of a heart fill the airwaves.

There's a love line, it's tied to the ground.

Leave you here, never let you down.

One is such a lonely number, to make the world go round. Three is just a little too much to touch, now honey To make the world go round and round and round.

One is such a lonely number, to mend a broken heart.

Three is just a little too much to touch, hey honey

To make the world go round and round and round and round.

There's a love line, it's tied to the ground. Leave you here, n ever let you down.

One is such a lonely number, to make the world go round. Three is just a little too much to touch, now honey To make the world go round and round and round.

One is such a lonely number, to mend a broken heart. Three is just a little too much to touch, hey honey To make the world go round and round and round.

One is such a lonely number, to make the world go round...
