

# Nightingale

Roxy Music

Before the morning comes  
Will I hear your song?  
Come little nightingale  
I won't be here for long

When you're up there flying  
Do you care  
If there's no one else around?

When your lover leaves you  
In the air  
Do you waver, do you fall?

Now, while the moon is high  
Shall we, nightingale  
Duet all through the night?  
A pair of souls for sale

Stars cluster glistening  
Captive till the dawn  
Patiently listening  
They've heard it all before

Should I stay here or should I go?  
I couldn't bear to be alone  
Was it really love I saw?  
Oh, now I'll never know

What is this I hear?  
Recognize that song  
Sweet little nightingale  
I knew you'd come along

Soon when the morning comes  
We will both be gone  
So sing pretty nightingale  
Lead, I'll follow on
