Sea Breezes

Roxy Music

I've been thinking now for a long time How to go my own separate way It's a shame to think about yesterday It's a shame, a shame, a shame

We've been running round in our present state Hoping help will come from above But even angels there make the same mistakes In love, in love, in love

Now that we are lonely Life seems to get hard Alone, what a world lonely Alone, it makes me cry

Thought-train set in motion
Wheels in and around
Express our emotion
Tracks up then it cracks down, down, down, down

Now that we are lonely
Life seems to get hard
Alone, what a world lonely
Alone, it makes me cry
I cry, I cry, I cry

We've been running round in our present state Hoping help will come from above But even angels there make the same mistakes In love, in love, in love
