

Still Falls the Rain

Roxy Music

Dear Hyde -
No more can I
Explain, I've tried
With words in vain
They pass you by
Like falling rain
From perfect skies
Still falls the rain
Inside

Hey brother don't be square
Here it is not over there
I'm your man - I've got it made
You need my fire you need my shade

You're here Hyde -
Once more inspire
This strangely tied
Uncertain frame
So torn inside
Still falls the rain
Two minds, one vein
Still falls the rain
Inside

Hey doctor don't be scared
It's you and me so where's my share'
I'm the man just move aside
Call me mister call me Hyde

Hey lover don't be shy
I'm a single minded guy
Better watch me - boy I'm rough
Half a man ain't strong enough

Hey brother don't be square
Here it is not over there
I'm your man - I've got it made
You feed my fire you need my shade
