

Wonder Is All I Do

Roy Acuff

The sun is in the west, while I [Incomprehensible]
The stillness of the night draws nigh
Alone and lonesome too, I'm thinkin' just of you
Dreamin' of the days gone by

Wonder if you still love me
Wonder if you're still true
Wonder if I found you broken
Wonder is all I do

When darkness hides the day and you're still far away
I'm longing for you, dear, just you?
I'm longing dream of light when day will break the night
Bringing back those days with you

Now that you're away, in dreams I hear you say
Darling, dear, you know I love you
I then did not refuse in dreams but they're not true
Lonesome thought of days with you

Wonder if you still love me
Wonder if you're still true
Wonder if I found you broken
Wonder is all I do
