

Emotion Devotion

Roy Drusky

To want and need you here with me and have to do without you (emotion)

To be a part but with you constantly and never have to doubt you (emotion)

There's can't be livin' like livin' should be

It's too hard on you and it's too rough on me

Emotion and devotion and a plain old fashion notion

Tell me this just can't be the way for love to live

Airline fights and sleepless nights and heavily disturbing sighs

And everybody want to me to give there's gotta be a better way to live

I dream of hitmakers with no road where I can be with you (emotion)

No daily papers took a row my every thought of you (emotion)

I long for you lonely longing for me knowing that love remains reality

Emotion and devotion...
