

There's Always One (who Loves A Lot)

Roy Drusky

There's always one who loves a lot and one who loves just a little

There's hurt for one who loves a lot from the one who loves just a little

There's always one more demanding there's always one more understanding

I guess I'm the one who loves you a lot while you love me just a little

But it's worth all the pain of loving a lot each time you love me just a little

There's always one who loves a lot and one who loves just a little
