

True And Lasting Kind

Roy Drusky

I walk the line because you make me want to
Because you're mine there's a lot of things that I don't do
And it makes me proud to tell someone you're mine

For our love is the true and lasting kind
I've searched for ways to tell you that I love you
And make you know that no one stands above you
It's the thought of you that gets me home on time

For our love is the true and lasting kind
It scares me sometimes when I stop to wonder
What would I do without you by my side?
I could never fill the space you leave behind
For our love is the true and lasting kind
For our love is the true and lasting kind
