

# Forever

Roy Harper

We're just spinning leaves  
In the flight of dawn  
Little girl  
Falling through an eternal horizon of time  
But I'd like to think as we lie  
That all we've got will be ours forever  
Don't you think we're forever  
I can hear a voice  
On the wings of my dream  
Little girl  
Melting me into love as it touches my heart  
But sheltered in the distance of your sleep  
Is all that I could love in a lifetime  
Don't you think we're forever

Open your eyes  
To the call of the winds  
Little girl  
Can't you hear them all saying I'll always be yours  
Lying in the misty morning sun  
The pillow of the night still beneath you  
Don't you think we're forever
