

Evergreen

Roy Orbison

Sometimes love will bloom in the springtime
Then like flowers in summer it will grow
And then fade away in the winter
When the cold winds begin to blow

But when it's evergreen, evergreen
It will last through the summer and winter too
When love is evergreen, evergreen
Like my love for you

So hold my hand and tell me
You'll be mine through laughter or through tears
Then let the whole world see, our love will be
Evergreen through all the years

For when it's evergreen, evergreen
It will last through the summer and winter too
When love is evergreen, evergreen
Like my love for you
