

I Never Knew

Roy Orbison

I never knew how much I'd miss your touch till you said good by
e

I never knew you'd hurt me too, till you made me cry
It never seemed you ever dreamed of hurting me this way
you said we're through what could I do I never knew
(never knew)

You left and you went away after saying never ever let me go oh

Now it's over and you're gone and I'm alone to cry
oh yes it's true how I love you I never knew

You left and you went away after saying never ever let me go oh

Now it's over and you're gone and I'm alone to cry
oh yes it's true how I love you I never knew

You left and you went away after saying never ever let me go oh

Now it's over and you're gone and I'm alone to cry
oh yes it's true how I love you I never knew
(I Never Never knew)
