

Let's Make a Memory

Roy Orbison

Come a little closer
Don't you tell me "no sir"
Let's make a memory

Come on now
Come on and give me your kiss now
What are you gonna miss now
Let's make a memory, a memory
Let's make a memory
Make a memory

Yes let's make a memory together
One that will last and last forever

Sweet baby
Baby hold me tight then
Squeeze with all your might then
Let's make a memory

Come on now
Just have a little fun for
What do you think we're young for?
Let's make a memory
Make a memory

Yes let's make a memory together
One that will last and last forever

Come on now
Let yourself let go now
Don't let love grow cold now
Let's make a memory

Sweet baby
Forget about the past now
We've got a love that'll last for
Now and forever we will be
Making memories...
Making memories
