

## Summer Song

Roy Orbison

Our summersong lingers on in my memory  
Since you've been gone from me  
Summer's come again, and again I'm alone  
Wish you were near when I hear our summersong

Our summersong lives on and on and on  
Inside of me, and it will, yes  
Until you return to me

Oh, when the leaves fall away from the trees  
I'll still be blue all winter long  
And I'll sing our summersong and dream of you  
I'll sing our summersong and dream of you
