

## Sweet and Easy to Love

Roy Orbison

Well it's so sweet and easy to love you  
Like I do yes it's true I love you  
And it's so sweet and easy to want you  
On my mind all the time say you're mine

I want you to say you'll always stay and be my love so true  
Because I know if you ever go I won't get over you  
Cause it's so sweet and easy to love you  
Like I do yes it's true I love you

Well it's so sweet and easy to love you  
Like I do yes it's true I love you  
And it's so sweet and easy to hold you  
Close to me, lovingly, tenderly

Now I will never love another I want only you  
I want to say in every way that you're my dream come true  
Cause it's so sweet and easy to love you  
Like I do yes it's true I love you  
I love you, I love you
