

## This Kind of Love

Roy Orbison

Our Love, our love, won't die, can't die  
This kind of love was meant for you and I  
This kind of love was meant for you and I

Your love, my love young love, true love  
This kind of love was meant for you and I  
This kind of love was meant for you and I

One dream through life, one day my wife  
This kind of love was meant for you and I  
This kind of love was meant for you and I

One dream through life, one day my wife  
This kind of love was meant for you and I  
This kind of love was meant for you and I  
This kind of love was meant for you and I
