## You Fool You

## **Roy Orbison**

You fool you, that's what my friends all say You fool you, don't throw your love away You fool you, remember yesterday Your baby walked away, away, from you.

So there you go, come running back again Stars in your eyes, be leading lights Your hungry heart still longs for love You think she'll win, and so you pretend

You fool you, that's what my friends all say You fool you, don't throw your love away You fool you, remember yesterday Your baby walked away, away, from you.

Ooh ooh ooh, You fool you.
