

Finally Figured Out

Royal Bliss

You feel so young
Surrounded by your friends
Full of compliments again, yeah
But does it ever end?
The slightest tongue
Twisted as they talk
About nothing at all, yeah
There seems time to kill

I finally figured out
What's been going wrong
Why, why doesn't it change?
No, it remains the same
Finally figured out
What's been going wrong
Nothing ever changes

Time is never on your side
And you start to question why
There's a better life
But it's not real
You believe it's fate
And I know I wanna take that way
If I would go

I finally figured out
What's been going wrong
Why, why doesn't it change?
No, it remains the same
Finally figured out
What's been going wrong
Nothing ever changes

Oh, yeah
Oh, yeah

And I'll take that load off your back
If you can't be sure why our track you fall down
Dragged you up, not away
Now break yourself, pay by night, we need
Stolen health, stolen time
And I'll never, ever take that away

I finally figured out
What's been going wrong
Why, why doesn't it change?
No, it remains the same
I finally figured out
What's been going wrong
Nothing ever changes

Yeah!
Oh, yeah
Yeah!
Yeah!
