

# I Got This

Royal Bliss

I got what you need  
I am gonna make you scream  
I got the thing that drives you wild  
Yea  
My baby likes to ride on top  
Yea  
My baby goes on and on

I'm the one to make her sing in the morning  
And still the one at dark  
Why don't you lay down the line and let me open the door

I got what you need  
I am gonna make you scream  
I got the thing that drives you wild  
I got this  
I got this

I live to get in trouble  
I love to make you mean  
Cause saying sorry always been the sweetest thing  
Yea  
My baby likes to ride on top  
Yea  
My baby goes on and on

I'm the one to make her sing in the morning  
And still the one at dark  
Why don't you lay down the line and let me open the door

I got what you need  
I am gonna make you scream  
I got the thing that drives you wild  
I got this I got this  
I got what you need  
I am gonna make you scream  
I got the thing that drives you wild  
I got this I got this

I want you sweet as cream  
I'll taste your ocean  
I'll bring you down on to your knees  
Yea

I got what you need  
I am gonna make you scream  
I got the thing that drives you wild  
I'll drive you wild  
I'll drive you wild  
I'll drive you  
I'll drive you wild  
I got what you need  
I am gonna make you scream  
I got the thing that drives you wild  
I got this I got this  
I got what you need  
I am gonna make you scream

I got the thing that drives you wild  
I got this I got this  
I got this I got this
