

How Did We Get So Dark?

Royal Blood

I saw it coming
Like the shadow on the wall
You starting running
When everything turned cold
How did I become lookalike
Of someone you used to love?
Someone you used to love

So dark
How did something so sweet tear us apart?
Oh, on a sinking ship with a heavy heart
How did we get so dark?

Nobody warned you
The tables would turn
I could have told you
Everything you've learnt
Would burn to dust
Now there's no one you can trust
Just someone you used to love
Someone you used to love

So dark
How did something so sweet tear us apart?
Oh, on a sinking ship with a heavy heart
How did we get so dark?

How'd we get so dark?
