

# Look Like You Know

Royal Blood

Say my prayers  
Every night  
But no one's there, to make it right  
Holding on  
Nothing's changed  
Same old love, just rearranged

No it's not better  
No it's not better  
No it's not better no  
No it's not better  
No it's not better  
No it's not better so

Just look like you know  
Look like you know something I should  
I think I should go  
I really feel like you want me to  
Don't say that you want me  
Don't pray the wish you can't make come true  
Can I be replaced?  
Cos that look on your face  
Says baby I never knew

Happiness  
On a drip  
To total bliss running down the drain  
Losing count of the days  
Now every kiss just feels the same

No it's not better  
No it's not better  
No it's not better no  
No it's not better  
No it's not better  
No it's not better so

Just look like you know  
Look like you know something I should  
I think I should go  
I really feel like you want me to  
Don't say that you want me  
Don't pray the wish you can't make come true  
Can I be replaced?  
Cos that look on your face  
Says baby I never knew

Just look like you know  
Look like you know something I should  
I think I should go  
I really feel like you want me to  
Don't say that you want me  
Don't pray the wish you can't make come true  
Can I be replaced?  
Cos that look on your face  
Says baby I never knew
