

# She's Creeping

Royal Blood

She's creeping  
Into my bloodstream  
Then crawling  
Out dead as a battery  
Then it sinks in  
I'm not where I'm supposed to be  
It's so boring  
Being what you want me to be

Cause I've stopped listening  
I'm just waiting for an answer to a question that I already know  
I'll let you down  
Words are so cheap  
But lately I've been feeling like I'm always living in your shadow  
When you're not around

So don't miss what  
Makes you so miserable  
Did my message send?  
God knows I'll send it again

Cause I've stopped listening  
I'm just waiting for an answer to a question that I already know  
I'll let you down  
Words are so cheap  
But lately I've been feeling like I'm always living in your shadow  
When you're not around  
You're not around

Cause I've stopped listening  
I'm just waiting for an answer to a question that I already know  
I'll let you down  
Words are so cheap  
But lately I've been feeling like I'm always living in your shadow  
When you're not around

Yeah she's creeping  
Into my bloodstream  
Yeah she's creeping  
Into my bloodstream  
She's creeping  
Now you're not around

You're not around
