

# Sleep

Royal Blood

I don't wanna sleep  
'Cause I've had enough  
Of the same ugly dream  
I just can't switch it off

Now I don't want to know  
'Cause I'm sick of the sound  
Misery's on repeat  
Now you're hanging around

But I need some medication  
Tell me you've got what I need  
I know you've got the cure  
Antidote hidden up your sleeve

I just can't help myself  
Thinking you're with someone else  
Sick to the bone  
I don't wanna sleep  
I read the warning sign  
You said I'd be alright  
Left on my own  
I don't wanna sleep

I've waited so long  
Forever counting down  
Thinking of all the ways  
I could get you back around

But I need some medication  
Tell me you've got what I need  
I know you've got the cure  
Antidote hidden up your sleeve

I just can't help myself  
Thinking you're with someone else  
Sick to the bone  
I don't wanna sleep  
I read the warning sign  
You said I'd be alright  
Left on my own  
I don't wanna sleep

I don't wanna sleep  
I don't wanna sleep  
I can't switch it off  
Think I've had enough  
I can't switch it off  
I think I've had enough

I just can't help myself  
Thinking you're with someone else  
Sick to the bone  
I don't wanna sleep  
I read the warning sign  
You said I'd be alright  
Left on my own

I don't wanna sleep

I don't wanna sleep

'Cause I've had enough

Of the same ugly dream

I just can't switch it off
