

# Honey Child

Royal Crown Revue

Sometimes your love is just like honey  
So sweet and wild-so sweet and wild  
Sometimes your love is just like menthol  
So cool and nice-so cool and nice  
That's why I don't want no other lover  
Nobody but you

Honey child, honey child

You got a funny little way  
A way of teasing  
Feels so right, yeah so right  
You've got a way-such a way  
Through the night, all through the night  
That's why I don't want no other lovin'  
Nobody but you

Honey child

You got a brand of lovin'  
That sets my soul on fire  
You got a brand of kissin'  
That drives me wild  
That's why I don't want no other lover

That's why I don't want no other lover  
That's why I don't want no other lover  
Say, that's why I don't want no other lover  
Say, that's why I don't want no other lover, baby
