

## Angel's Gone

Royal Hunt

Can't go on without knowing  
How to make it through another day  
Can't be blind yet keep on going  
Tell me why you've left me here to stay  
All alone... on my own... it goes on and on

Lift me up and bring me straight to heaven  
Burn my past and everything I've done  
Take my sins - I piled them up, all seven  
... now I see - my guarding angel's gone

I don't know where did you come from.  
Fallen angel from a dream... you see:  
I don't care, and if it's such a turn on -  
Tear apart the very rest of me  
Lose the key... let it be... set me free

However... forever... my guarding angel's gone
