

Molotov

Royal Republic

Get out of my way because I can't see straight
There will be no negotiation when I'm in this state
They don't know I've got problems but I'll do it anyway
Just another shot of fire and I know I'll be OK
If you fall talk about it, come again another day

So can I get another shot of..
I need another shot of..
I want another shot of..
Molotov

Let's set this place on fire 'cause I don't wanna dance
Well, nobody ever gets it, nobody understands
So don't you cheat all the bullshit, I'm filling up the glass
I don't need to interface because I'm heading for a crouch
You might as well be Jacks but your face is gonna die

So can I get another shot of..
I need another shot of..
I want another shot of..
Molotov

So can I get another shot of..
I need another shot of..
I want another shot of..
Well can I get another shot of..
I want another shot of..
I need another shot of..
So can I get another shot of..
