

Walking Down the Line

Royal Republic

Well I listen to the radio
and it's all buzzin' in my head
it is the worst I've ever heard
but it's odd

And I keep watching all the TV shows
but I don't like what I see
it ain't nothing like it used to be
but it's odd

'cause I'm just like you and everyone else
on a carpet ride going straight to hell
walking down the line walking down the line
x4

You take a ride in your super-car
You go real fast
Your turn your gold into gasoline
and it's odd

'cause you are just like me and everyone else
on a carpet ride going straight to hell
walking down the line walking down the line
x4

oh yeah
ah walking down the line
ah walking down the line
ah walking down the line

Now we're playing on your stereo
it's your favorite song
it's the best that you've ever heard
and it's odd

("'cause you are just like us and everyone else")
You are just like us and anyone else
("You are just like us and everyone else")
You are just like us and everyone else

yeah
walking down the line wakling down the line
walking down the line walking down the line
