

## A Discovery (we're Lovely)

Royal Wood

Hope, hope  
Filling a bucket full  
Lines, lines  
Between them I see the signs  
Of stars, of stars  
Heaven knows I'm alarmed  
By what's been armed by us

Luck, luck  
We're praying it's in the cup  
Delight, delight  
Thinking we have arrived  
The sounds, the sounds  
Heaven knows what's around  
And what's been bound in us

We're lovely  
We're lovely  
There's nothing above it  
We're lovely  
So lovely  
Our beauty's a discovery  
And it's time

Life, life  
Regardless of all the strife  
It led, it led  
Me down this here road to get  
To you, to you  
I've everything here to lose  
So I've hired the moon for us
