

# All Of My Life

Royal Wood

May you always be my dearest  
Till the end of all is near us  
Eye to eye and truest faith of two

May love ever be our purpose  
Never lost or once desert us  
On your finger is a star that's shown

I will be the one to hold on  
When the walls around are undone  
And waters pacing over rivers edge

For I will breathe to be your lover  
Many layers of us uncovered  
A moth escapes to be a better man

Stone on stone and breaking bread  
We build a house of us ahead  
And talk of all our good and many plans

I will last when all is lost  
And never once a worried cost  
I'll gladly offer you my final bow  
I will be the one to hold on  
When the walls around are undone  
And waters pacing over rivers edge

This I promise you all of my life  
This I promise all of my life  
This I promise you all of my life  
This I promise all of my life
