

Forever We're Tied

Royal Wood

If our eyes are windows
And the shades are drawn
Well how can we see clearly?
With our blinders on

The ship's on horizons
It's battle drum sounds
It's cannons take ready
And our hearts are found

It's the same way I love you
The reason I try
To keep us together
Despite all the lies

If our eyes are windows
And the shades are drawn
Well how can we see clearly?
With our blinders on

The planes are arriving
The battle cry sounds
Their rockets flare ready
And our hearts are found

It's the same way I love you
The reason I try
To keep us together
Despite all the lies

If our eyes are windows
The shades are drawn
Well how can we see clearly?
With our blinders on

The armies are marching
The battle charge sounds
Their rifles aimed ready
And our hearts are found

It's the same way I love you
The reason I try
To keep us together
Despite all the lies
It's the same way I love you
The reason I find
Ways to keep us together
Forever were tied
Oh forever were tied
Together inside
Ways to keep us together
Forever were tied
