

Sway

Royal Wood

We can be the way we used to be if we want to be
Fold our ears and hold the sirens at bay
Needing gods around we'll hit the ground
We'll have to let the bullet's ricochet

Oh we can be together
We can be together any way
Oh...

We can be the way we used to be if we want to be
Close our fists and hold the ships all in place
Blind to think we'll hit the drink 'till we fully sway
And blur the images away

Oh we can be together
We can be together any way
Oh...

Oh we can be together
We can be together any way
Oh...

Oh we can be together
We can be together any way
That's all that matters today
