

When Nothing's Left

Royal Wood

What is this we find ourselves alone again?
Just you and I a force against the gears
If nothing's left to burn we must burn ourselves
When nothing's left to burn

How is this we find ourselves as two again?
Yes you and I a rage against the mirror
If nothing's left to say we must speak ourselves
When nothing's left to say

How my love this moment here is ripe for us
Yes you and I so brave against the years
If nothing's left to live we must find a way
When nothing's left to live

With all my heart...

Yes how my love this moment here is ripe for us
Yes you and I so brave against the years
If nothing's left to live we must find a way
There's reason yet to live
There's something left to give
We must find a way
There is so much to give
