

Baby

Rozalla

Baby heh oh yeah baby
I just want to call you baby

I can read all the letters that you sent me
I can be all the things you want me to do
To leave or to stay
I don't even know if I should call you baby

Call you baby call you baby
Call you baby call you baby
Call you baby call you baby

I keep spinning me around and around
I keep spinning me up and down
I keep spinning me around and around
Around and around up and a down

I could sit in the same bar every same day
I could fly with the clouds in my coffee
Today and yesterday
I don't even know if I should call you baby

Call you baby call you baby
Call you baby call you baby
Call you baby call you baby

I keep spinning me around and around
I keep spinning me up and down
I keep spinning me around and around
Around and around up and a down

Call you baby call you baby
Call you baby call you baby
Call you baby call you baby

I keep spinning me around and around
I keep spinning me up and down
I keep spinning me around and around
Around and around up and a down

Oh being with you baby wasn't easy
But I wouldn't change a single day
To leave or to stay
I don't even know if I should call you baby

Call you baby call you baby
Call you baby call you baby
Call you baby call you baby

Call you baby call you baby
Call you baby call you baby
Call you baby call you baby

Call you baby call you baby
Call you baby call you baby
Call you baby call you baby
