

# Don't Stop The Lovin'

Rozalla

I was looking for an answer  
It was right in front of my eyes  
No need to look no further  
It's where the heavens meets the skies

Always searching for the moment  
Now I know it's here with you  
Always searching for a real love  
I know I know I'll be there for you

Don't stop the lovin'  
I can't stop the feeling  
You gave me something to believe in  
Real love real love

I never wanna lose you  
Cause it's you that made it real  
I'm into you so deeply  
Only you know how I feel

I wanna build my world around  
So that we can both explore  
I'm only looking for a real love  
I know I know I'll be there for you

Don't stop the lovin'  
I can't stop the feeling  
You gave me something to believe in  
Real love real love

Don't stop the lovin'  
I can't stop the feeling  
You gave me something to believe in  
Real love real love
