

The Story Book Of Love

Rozalla

Come on, come on with me
To my fantasy
I'll make you think it's real
Cause I can tak you there

I'll take you to my garden
The garden of my love
A thousand endless nights
In the storybook of love

Now it's time to ride
To the land that's you and me
With power of the sun
Our love will always shine

I'll take you to my garden
The garden of my love
A thousand endless nights
In the storybook of love

In the storybook of love
Baby why don't you take me
To the storybook of love

We will live together
In the storybook
We will live together
