

3 Lights

RPWL

Again I'm standing in the rain
Braindead from a working day
A cold wind on this monday afternoon

This place still holds the magic
Even though I did the best I could
All those years ago are running 'round my brain

3 lights shine through the darkness
To unlock the great wide spirit of my life
3 lights: the same old feeling comes again
And takes me home

No delay expected
So I wait, let life pause for a while
I see three lights in the distance, drawing near

Yesterday you came to pick me up
And take me far away
But today you come again to take me home

3 lights shine through the darkness
To unlock the great wide spirit of your life
3 lights: the same old feeling comes again
And takes me home

In the veil of darkness
The time is right to go
Leave the empty platform far behind
Looking for your light

As I'm rushing through the night
